Tampa's Westshore Interchange Early Works Projects

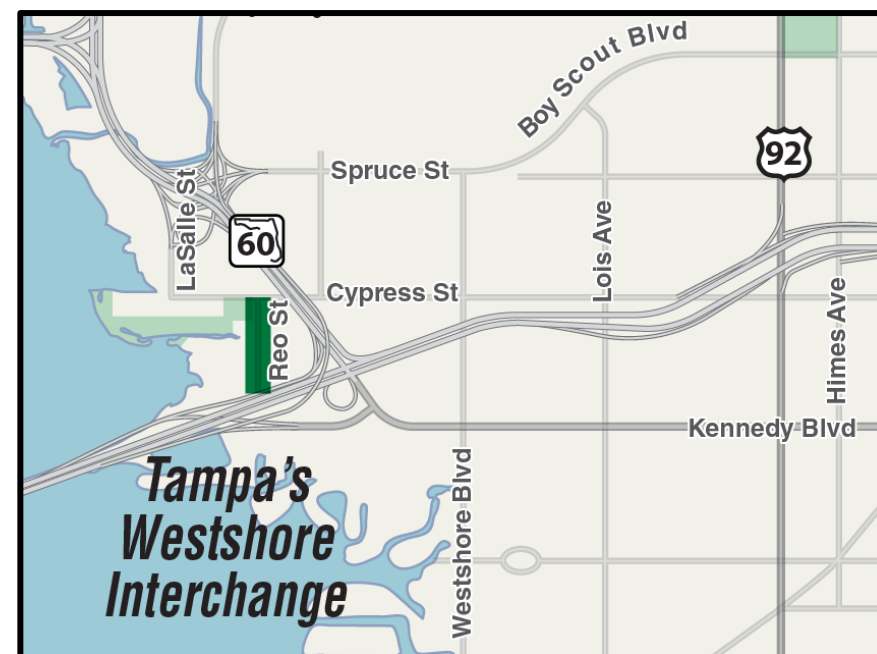

- Add one lane to WB SR 60 north of TIA
- Add new ramp to Independence Parkway

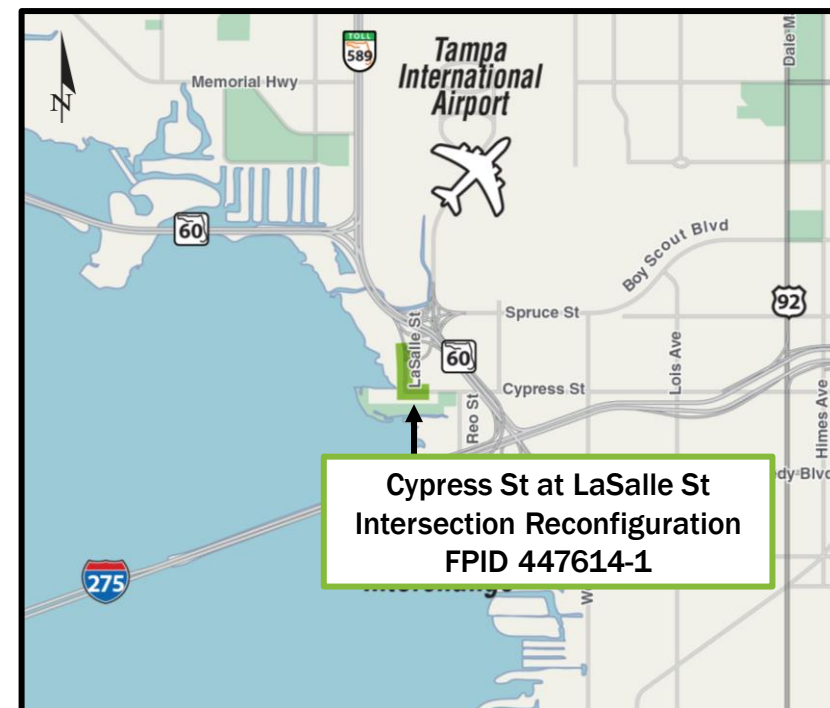

- Extend a new seawall
- Construct a shared use path (SUP) along the north side of I-275
- SUP will connect to the SUP to be constructed along Reo Street providing connections to the trail network

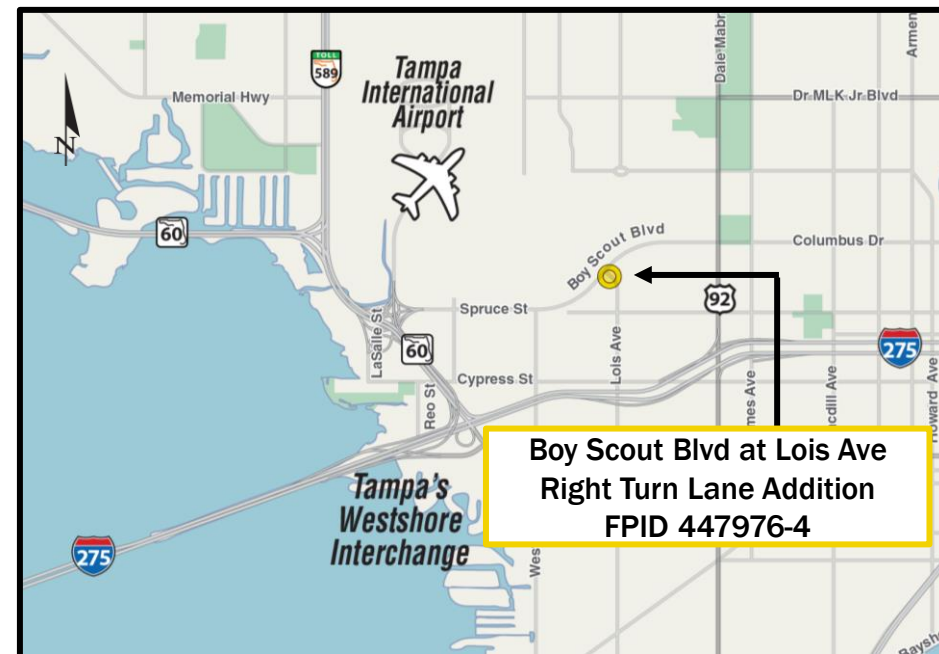

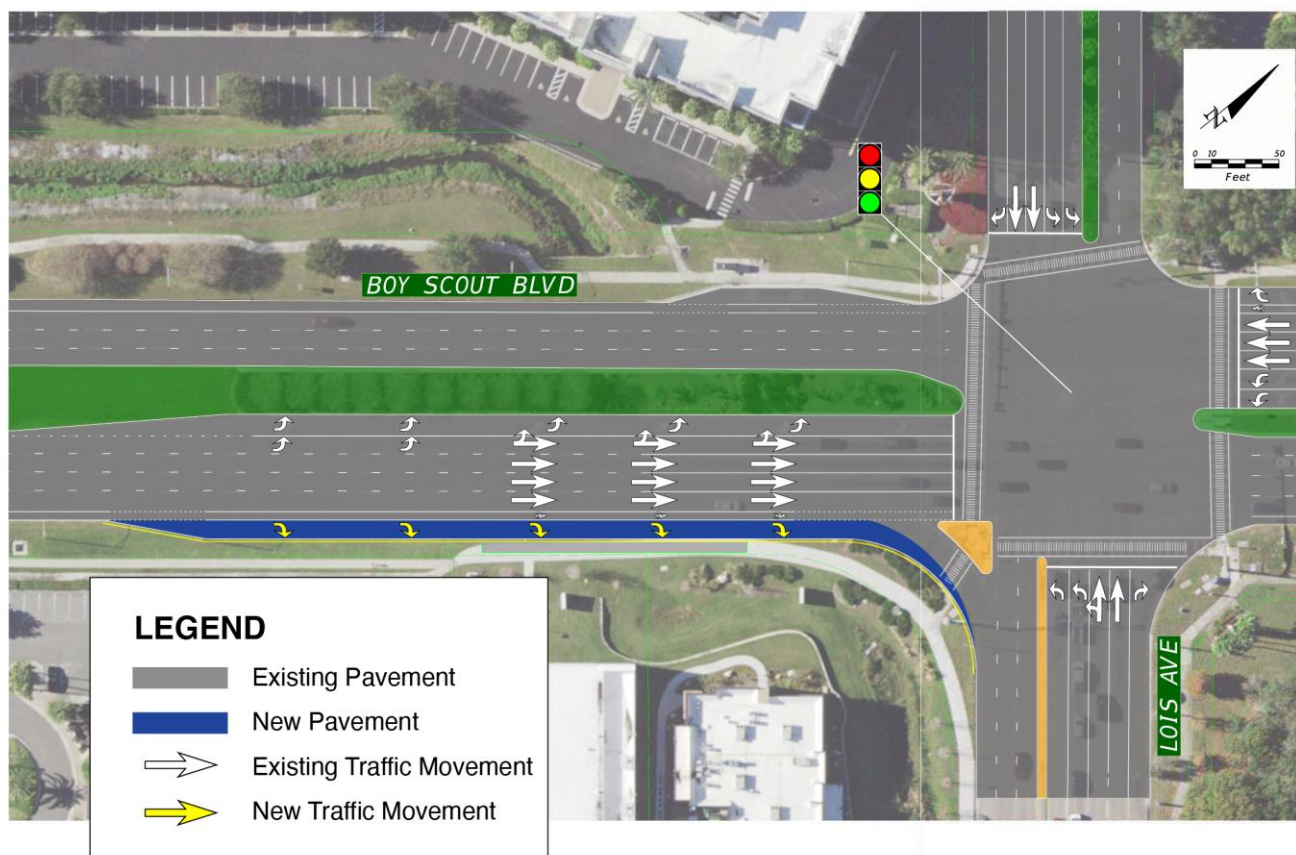

- Widen Reo St from 2-lanes to 4-lanes
- Widen Cypress St for turn lanes and signalize the intersection
- Provide shared use path connectivity

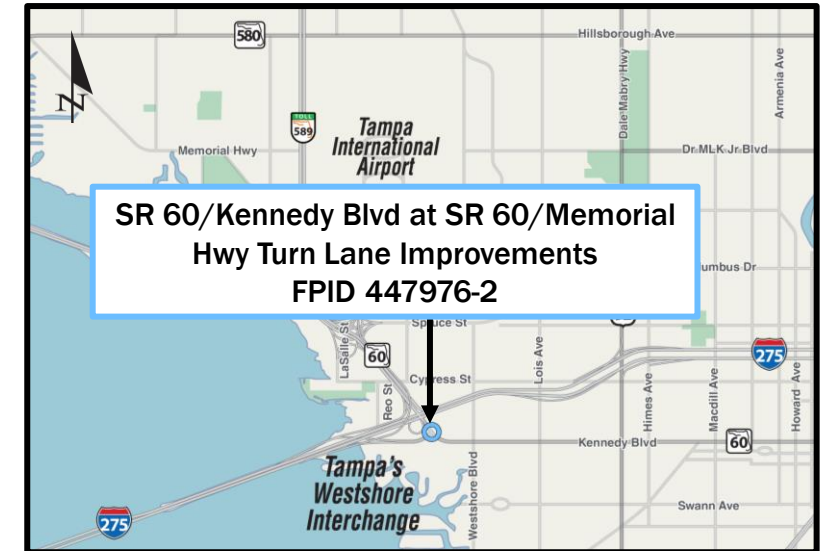

- Widen and realign the Cypress Street and W LaSalle Street intersection
- Provide a protected left turn lane from TIA toward Cypress Street

- Add a right turn lane from EB Boy Scout Boulevard to SB Lois Avenue

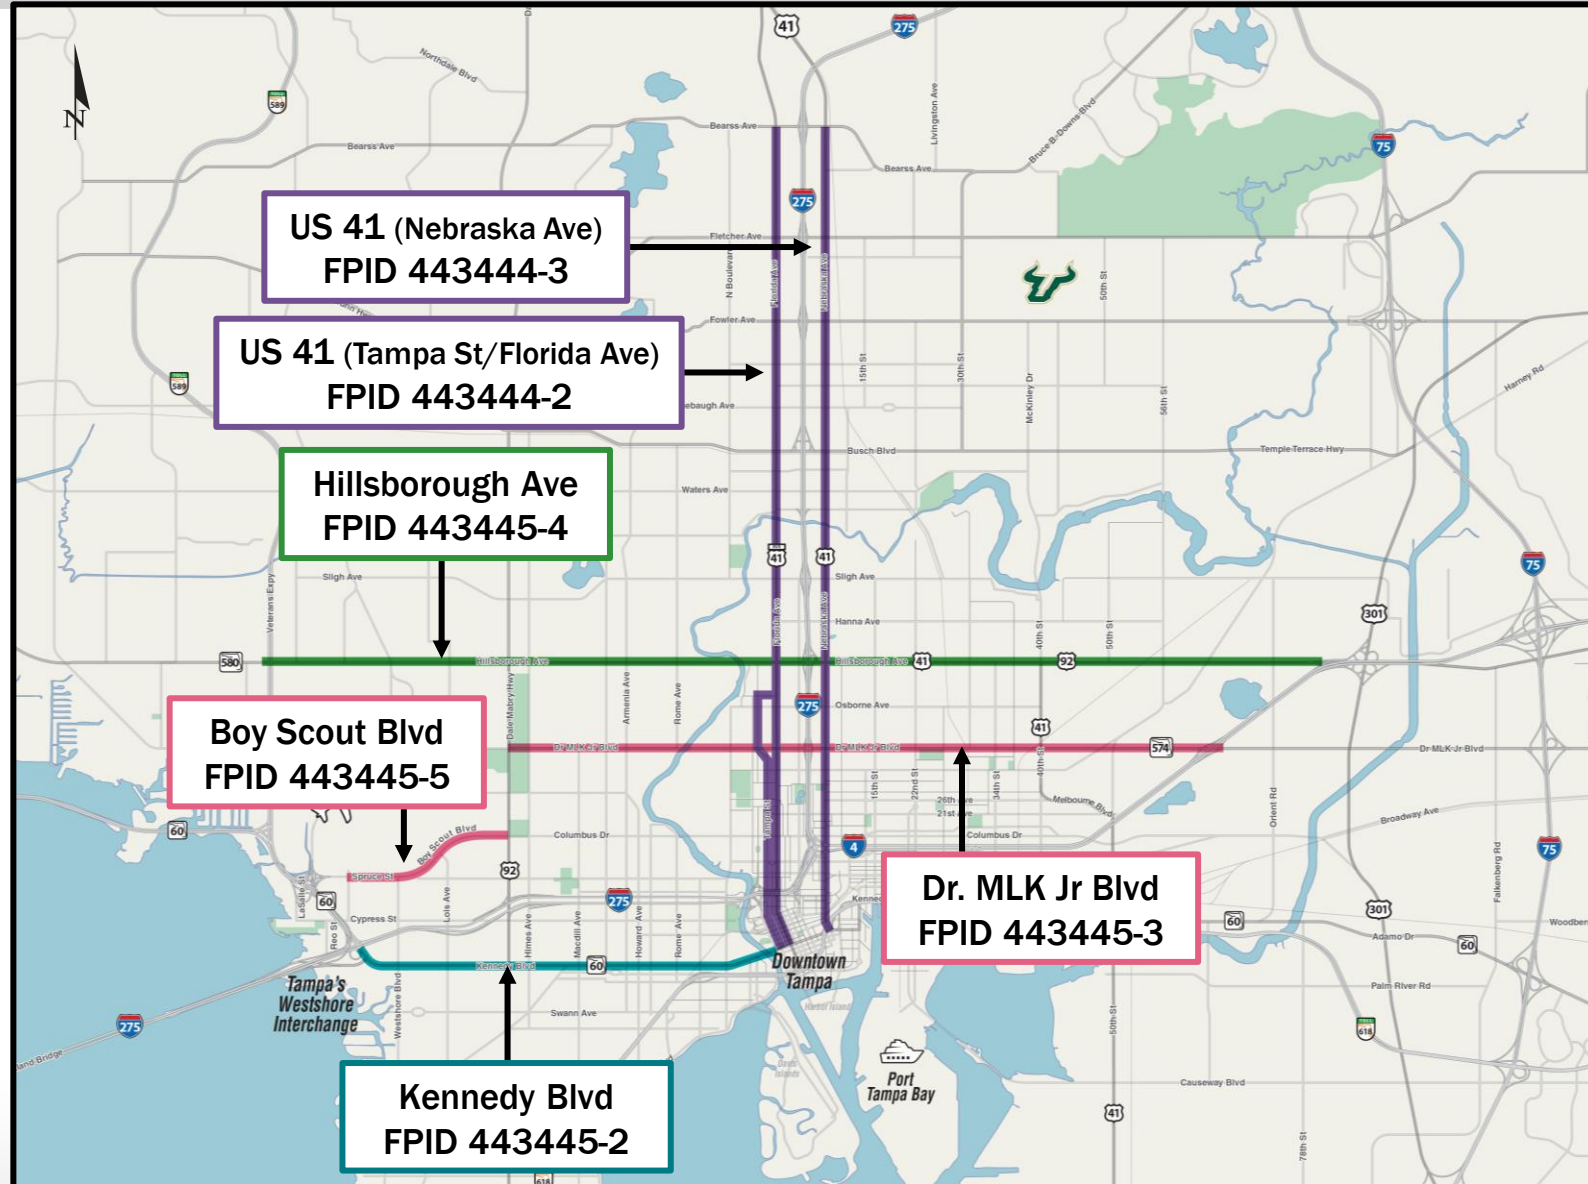

- Provide additional turn lanes to accommodate traffic to/from W Kennedy Boulevard

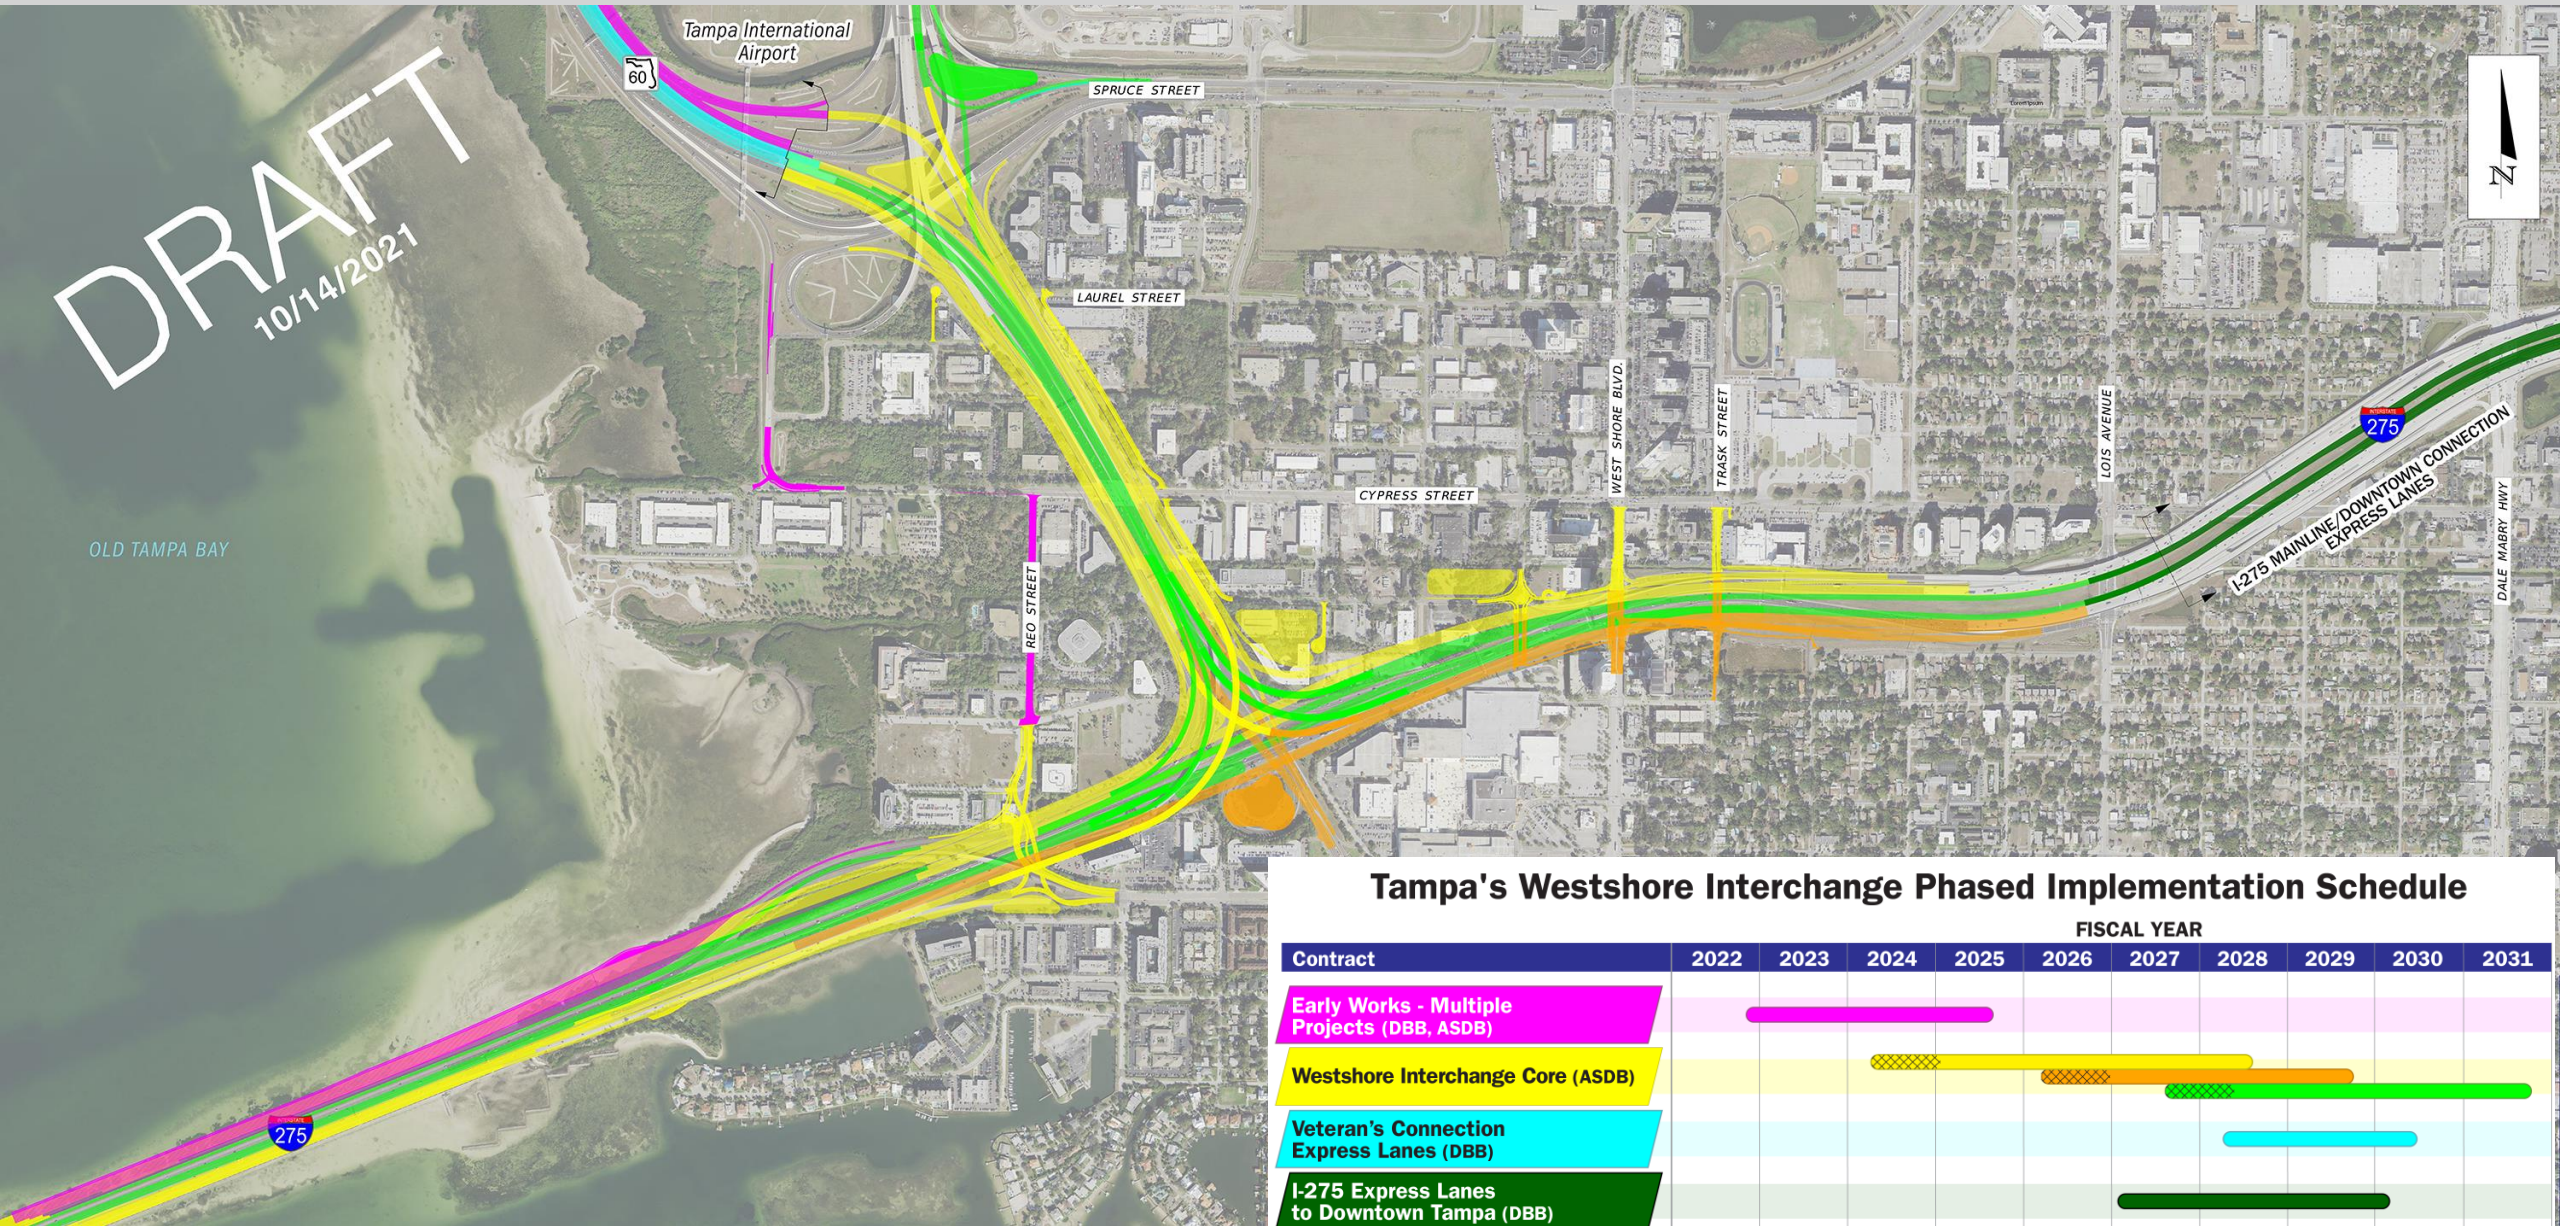

Integrated Corridor Management (ICM) projects:

- Actively manage traffic flow based on near real time conditions
- Help reduce delays, improve travel time reliability, and enhance safety
